

What Is Going On Tonight.

Motion Pictures and Songs at Broad Theatre.

Frank A. Bill offers still lower prices to close out summer shoes. He offers ladies' \$2.50 white oxfords at 95 cents, the \$2.50 ones at \$1.45. Ladies' \$3.00 black and russet pumps at \$2.19; also big bargains in men's shoes.

COMEDY CIRCUS AT THE AUDITORIUM NEXT WEEK.

A special feature bill has been booked by the management of this popular playhouse for the first half of next week and is headed by De War's comedy circus, one of the highest rated acts which has ever played this house. The act includes several ponies, dogs and a wonderful kicking mule which will afford much amusement to all. Mr. De War has a very good novelty in his revolving table specialty. This is a large table with a revolving top and on which any four-legged animal can easily walk, but it is played by a man or a woman being unable to do so. It is very funny to see a pony running on the table, while one of Mr. De War's men or a person from the audience is constantly falling off. All who can should see this act. Other strong novelties on Monday's bill will be Juggling Nelson, and the Chickadees, a clever pair of whistling impersonators. The picture bill for Monday will include some excellent reels.

BREED THEATRE.

A programme that will inspire the hearts of all true Americans is on at the Breed today, and is headed by the great allegorical feature film entitled "Lincoln's Address at Gettysburg." This picture stands without an equal in its class, and the difficult role of the martyred president is played by a great young actor scarcely out of his teens. Yet by his extreme depth of feeling, Mr. Ralph Ince makes of this character one of the greatest successes of the Vitaphone company. The plot portrays the presentation of the dedicatory address on the battlefield of Gettysburg, Pa., November 19, 1863, in which Lincoln consecrates the battlefield to the memory of the dead and the inspiration of the living. As he does so, all of the great battles of the ages past, come to him as a vision, and he sees at what great price victory was acquired. This film was the recipient of the pronounced approval of an immense house last evening, and can be seen for the last time today.

Sun Acts as Timepiece.

There is no need for clocks on the Aegean sea any day when the sun is shining. There nature has arranged her only timepiece, one that does not vary though the centuries pass. This natural time marker is the largest sun dial in the world. Projecting into the blue waters of the sea is a large promontory which lifts its head 3,000 feet above the waves. As the sun swings round, the pointed shadow of the mountain just touches one after the other a number of small islands, which are at exact distances apart and act as hour marks on the great dial.
